Colonel George L. Iverson
Director

June 27, 1988

It is with distinguished pleasure that the New Hampshire State Police proudly presents the eleventh edition of "Crime in New Hampshire." These vital statistics are tabulated so that crime indications can be established and crime trends defined.

Extensive enforcement, combined with public awareness and assistance, produced a decline in burglary, motor vehicle theft and arson type offenses. Disturbing statistics however, indicated increases in homicide, rape, robbery, aggravated assault and larceny type offenses. It is a forecast that we must seriously acknowledge, for it is from these statistics that we formulate enforcement policies to counteract such trends.

Indicative to these enforcement procedures is the continuing rigorous attack on the state's drug problem by state, county and local agencies. Enforcement personnel, dedicated toward the identification and arrest of persons involved in narcotics trafficking, resulted in an incarceration increase of 57.6%.

The criminal element is extremely mobile and subsequently makes the ambitions of law enforcement much more difficult. However, with the increased training initiative, updated investigative techniques and sophisticated laboratory examination, in combination with the dedication and perseverance attributable to the law enforcement community, New Hampshire is and will be a safe place to live and enjoy life to its fullest.

Very truly yours,

George L. Iverson

GLOSSARY OF TERMS

Adult - In New Hampshire an adult is a person 18 years of age or above.

Cleared by Arrest or Exceptional Means - For UCR purposes, an offense is "cleared by arrest" or solved for crime reporting purposes when at least one person is (1) arrested, (2) charged with the commission of the offense, and (3) turned over to the court for prosecution. In certain situations, when the police have exhausted all leads and done everything possible to clear a case, the offense can be "exceptionally" cleared. The following conditions have to be met before an offense can be cleared exceptionally: (1) The investigation has definitely established the identity of the offender; (2) There is enough information to support an arrest, charge, and turning over to the court for prosecution; (3) The exact location of the offender is known so that he could be taken into custody; and (4) There is some reason outside law enforcement control that precludes arresting, charging, and prosecuting the offender.

Index Offenses - The sum total of eight major offenses used to measure the extent, fluctuation, and distribution of crime a given geographical area. The eight offenses are: (1) Murder, (2) Forcible Rape, (3) Robbery, (4) Aggravated Assault, (5) Burglary, (6) Larceny-Theft, (7) Motor Vehicle Theft, (8) Arson. Each of these offenses is referred to as an "Index Offense."

Juvenile - In New Hampshire, a person 17 years of age or under.

Property Crime - Consists of the Index Offenses of Burglary, Larceny, Motor Vehicle Theft, and Arson.

Violent Crime - Consists of the Index Offenses of Murder, Forcible Rape, Robbery, and Aggravated Assault.

CALCULATION OF RATES

Crime Rate

To compute rates, divide your community's population by 1,000 and then divide the number of offenses by the resulting figure.

Example:

a. Population for your jurisdiction, 31,600.

b. Number of known burglaries for your jurisdiction for a year, 341.

Divide 31,600 by 1,000 = 31.6.

Divide 341 by 31.6 = 10.79.

The burglary rate is 10.79 per 1,000 inhabitants.

Clearance Rate

The percentage of crimes cleared by arrest is obtained by dividing the number of offenses cleared by the number of actual offenses known. This answer is then multiplied by 100.

Example:

55 Burglaries cleared
341 Burglaries known .16 x 100 = 16%

Your percentage of clearance for burglary is 16%.

DOMESTIC ASSAULT

In 1979, the General Court mandated the Director of State Police to present an annual report to them concerning the nature and extent of domestic violence in our State. It was decided to collect this data in conjunction with the UCR program by adding a relationship category to the information collected in assaults. The following chart indicates the relationship of the offender to the victim along with the type of weapon used in aggravated assaults and the number of simple assaults for 1987:

September 19, 1989

We are proud to present our 12th annual "Crime in New Hampshire". The crime statistics contained herein not only aid the criminal justice community in predicting crime trends, but allows the general public access to accurate and timely crime data.

For 1988, major crime rose only .7 percent over 1987. This modest gain is primarily represented in an increase in property crime. Most catagories of violent crime, including murder, rape and robbery recorded decreases over the previous year. Only aggravated assault went up. Arson offenses showed a significant increase of more than 20 percent.

Drug related arrests recorded an increase of 5.4 percent over last year. The increase is most likely due to enhanced enforcement efforts to detect drug related crimes. Cocaine and marijuana continue to be the drugs which account for the majority of the offenses. Cocaine, in particular, was the illegal drug of choice which accounted for the greatest percent of increase in arrests.

We recognize the contribution of the local and county law enforcement agencies in New Hampshire who provide the offense and arrest numbers to the Uniform Crime Report Unit. Our thanks go to all police agencies who make the UCR Program a success.

Very truly yours,

Colonel Lynn M. Presby

GLOSSARY OF TERMS

Adult - In New Hampshire an adult is a person 18 years of age or above.

Cleared by Arrest or Exceptional Means - For UCR purposes, an offense is "cleared by arrest" or solved for crime reporting purposes when at least one person is (1) arrested, (2) charged with the commission of the offense, and (3) turned over to the court for prosecution. In certain situations, when the police have exhausted all leads and done everything possible to clear a case, the offense can be "exceptionally" cleared. The following conditions have to be met before an offense can be cleared exceptionally: (1) The investigation has definitely established the identity of the offender; (2) There is enough information to support an arrest, charge, and turning over to the court for prosecution; (3) The exact location of the offender is known so that he could be taken into custody; and (4) There is some reason outside law enforcement control that precludes arresting, charging, and prosecuting the offender.

Index Offenses - The sum total of eight major offenses used to measure the extent, fluctuation, and distribution of crime in a given geographical area. The eight offenses are: (1) Murder, (2) Forcible Rape, (3) Robbery, (4) Aggravated Assault, (5) Burglary, (6) Larceny-Theft, (7) Motor Vehicle Theft, (8) Arson. Each of these offenses is referred to as an "Index Offense."

Juvenile - In New Hampshire, a person 17 years of age or under.

Property Crime - Consists of the Index Offenses of Burglary, Larceny, Motor Vehicle Theft, and Arson.

Violent Crime - Consists of the Index Offenses of Murder, Forcible Rape, Robbery, and Aggravated Assault.

CALCULATION OF RATES

Crime Rate

To compute rates, divide your community's population by 1,000 and then divide the number of offenses by the resulting figure.

Example:

a. Population for your jurisdiction, 31,600.

b. Number of known burglaries for your jurisdiction for a year, 341.

Divide 31,600 by 1,000 = 31.6.

Divide 341 by 31.6 = 10.79.

The burglary rate is 10.79 per 1,000 inhabitants.

Clearance Rate

The percentage of crimes cleared by arrest is obtained by dividing the number of offenses cleared by the number of actual offenses known. This answer is then multiplied by 100.

Example:

55 Burglaries cleared
341 Burglaries known .16 x 100 = 16%

Your percentage of clearance for burglary is 16%.

DOMESTIC ASSAULT

In 1979, the General Court mandated the Director of State Police to present an annual report to them concerning the nature and extent of domestic violence in our State. It was decided to collect this data in conjunction with the UCR program by adding a relationship category to the information collected in assaults. The following chart indicates the relationship of the offender to the victim along with the type of weapon used in aggravated assaults and the number of simple assaults for 1988:
